

## Submersible Cables

### SYSTEMS

“SUPERIOR SYSTEMS TO ENHANCE THE RELIABLE AND  
LONG-LIFE OPERATION OF EKKI PUMPS”

# SUBMERSIBLE CABLES

**Submersible  
Cables**

## Technical data :

Available sizes : 1.5, 2.5, 4, 6, 10, 16 sq.mm  
Voltage Rating : 1100 V  
Temperature : Max.Conductor 90°C  
Conductor : High Conductivity annealed and punched copper  
Insulation material : Flexible water proof PVC/EPDM/EPR

## Features and benefits :

- High Conductivity annealed and punched copper.
- Withstanding a high voltage and current.
- Can withstand the impact voltage and current.
- High grade Flexible water proof PVC/EPDM/EPR insulation Material.
