### **About EKKI**

EKKI is one among India's advanced Pumps and Water Technology providers. EKKI's purpose is to provide access to clean water in an efficient and sustainable way for agricultural, building services, industrial and public utilities markets.

Since its inception in 1981, this family business has been producing a wide range of pumps and water technologies. Currently, the firm owns 4 world class production centres. EKKI has also established a global presence with its international manufacturing collaborations and distribution partnerships. The EKKI Group has an International Joint Venture Alliance with HOMA of Germany, the world leader in waste-water technology. Today EKKI's products are sold in more than 20 Countries.
